Objective:

Detail-oriented and motivated IT graduate specializing in programming and system analysis. Proficient in modern programming languages and database technologies, with hands-on experience in software development, QA testing, and web applications. Seeking a junior developer or IT support role to contribute to innovative tech solutions.

Education:

Diploma in Information Technology: Programmer/Analyst

New Brunswick Community College (NBCC), Saint John

Graduation: June 2025

Technical Skills:

- **Languages:** C, C#, Java, JavaScript, Python, PHP, SQL
 - **Web Technologies:** HTML5, CSS3, Bootstrap
 - **Databases:** MySQL, SQL Server, Database Design
 - **Tools/Platforms:** Git, Linux/Unix Terminal, Visual Studio, NetBeans, XAMPP
 - **Concepts:** Quality Assurance (QA), CRUD operations, RESTful APIs, OOP
 - **Other:** Power BI, Excel, Arduino
-

Projects:

Trip Booking App (C#)

Created a Windows Forms application that calculates the cost of a trip based on location, group size, and payment method (cash or credit).

Dynamic PHP Quiz App

Built a PHP-based quiz system loading questions from JSON files with single-question navigation, session tracking, and score calculation.

Java Inventory Management GUI

Developed a Java Swing GUI to manage and filter books from CSV data using object-oriented design and event listeners.
